

Oakville Water Purification Plant

# 2026 Water and Wastewater Rates

Halton Region provides residents and businesses with safe, high-quality drinking water 24 hours a day, seven days a week. Halton Region has a proven track record of meeting and exceeding Provincial drinking water standards and will continue to ensure residents and businesses have reliable access to high-quality water and services.

Halton Region's water and wastewater rates support:

- the reliable supply of safe, clean drinking water;
- wastewater services that meet the needs of the community and protect the environment;
- well-planned and sustainable infrastructure; and
- strategic reinvestment in the state-of-good-repair.

# Combined water and wastewater rates

Effective January 1, 2026, your combined water and wastewater rate will increase by 6.0 per cent.

## Fixed service charge based on water meter size\*

(Charges in the table below are in monthly terms.)

Meter size	Residential (\$)	Commercial/ Industrial/ Institutional (\$)
20 mm or smaller (3/4 or less)"	40.67	40.67
25 mm (1")	70.85	131.67
40 mm (1-1/2")	125.98	216.20
50 mm (2")	293.45	472.93
75 mm (3")	534.39	843.09
100 mm (4")	925.41	1,441.53
150 mm (6")	2,374.41	3,663.02
200 mm (8")	3,823.44	5,884.75
250 mm (10")	4,706.73	7,352.26

\* The size of your meter is identified on your bill.

## Usage charges per cubic metre (1 m<sup>3</sup> = 1,000 litres)

	Residential (\$)	Commercial/ Industrial/ Institutional (\$)
Per cubic metre	3.3441	3.3441

Halton's water and wastewater rates are based on the Council-approved 2026 Budget and Business Plan. Applying a fixed and variable fee structure is an industry best practice to support the Region's water and wastewater system.

# Understanding your residential water bill

## How your bill is calculated

The Region partners with your local hydro utility to produce a combined bill for your household’s hydro and water charges. Your bill is calculated by adding your monthly fixed-service charge (based on meter size) to your consumption charge (based on your water usage). Bills are typically issued every two months for residential customers, and every month for industrial, commercial and institutional customers.

## 2026 water and wastewater rate increase

### How the 2026 rate increase will be used

Effective January 1, 2026, your combined water and wastewater rate will increase by 6.0 per cent. This increase supports:

- operations and maintenance to keep our drinking water safe and of the highest quality (2.5 per cent);
- capital financing of the State-of-Good-Repair Program (3.0 per cent); and
- enhancements to the Basement Flooding Mitigation Program (0.5 per cent).

The table below illustrates an example of the bi-monthly charges for a residential customer who has a 20 mm water meter and has used 38 m<sup>3</sup> of water:

	Rate (\$)	Quantity	Total (\$)
Fixed service charge	40.67 per month	2 months	81.34
Consumption charge	3.3441 per m <sup>3</sup>	38 m <sup>3</sup>	127.08
Total bill			208.42

A typical household using 226 m<sup>3</sup> per year will have a total increase of \$71 in water and wastewater charges in 2026.

## Halton Region emergency water services\*

Halton Region provides emergency service 24 hours a day, seven days a week to respond to:

- basement flooding
- sudden loss in water pressure
- watermain breaks
- tap water quality concerns
- leaks at your water meter
- frozen water service lines

\* Cost of repairs or replacements within property boundaries are the homeowner's responsibility.

### Important water billing information

Property owners are responsible for all water charges for their property, including their tenants' use.

Your water meter measures your property's water consumption. If the meter stops working or shows a low reading, your bill may be estimated until a new meter is installed.
