

NOTICE OF A RATE HEARING

Milton Hydro Distribution Inc. has applied to increase its electricity distribution rates effective January 1, 2027

Milton Hydro Distribution Inc. (Milton Hydro Distribution) has applied to the Ontario Energy Board (OEB) to increase its electricity distribution rates effective January 1, 2027.

The requested rate adjustment is determined using an OEB-approved formula, which is tied to inflation and other factors intended to promote efficiency. If the application is approved as filed, a typical residential customer and a typical general service customer of Milton Hydro would see the following increases:

Customer Class	Monthly Rate
Residential (750 kWh)	\$2.46 per month
General Service less than 50kW (2000 kWh)	\$4.71 per month

Other customers, including businesses, will also be affected. It's important to review the application carefully to determine whether you may be affected by the proposed changes.

Milton Hydro Distribution has also requested incremental capital funding for the Palermo Transformer Station (TS) Upgrade and Feeder Expansion Project (Palermo Project). Milton Hydro Distribution says the Palermo Project will increase electricity system capacity and support ongoing customer growth. The Palermo Project consists of:

- Milton Hydro Distribution's capital contribution to Hydro One to upgrade the Palermo TS
- The transfer of ownership of eight hydro poles and associated conductor from Hydro One to Milton Hydro Distribution
- The construction of feeder egress facilities required to connect Milton Hydro Distribution's feeders to the new Palermo TS switchyard
- The related feeder line extension works required for Milton Hydro Distribution to utilize the additional capacity within its distribution system
